Together the divisionists would easily have carried the fourth precinct and perhaps one or two candidates in the others.

A great deal of scratching was done and when the votes are counted, which will be late, it is possible the democrats may gain some members of the council. The liberals will have 1,000 plurality. The divisionists charge wholesale fraud by city officials, nota-bly Water Master Ryan, in colonization of Hobos for voting purposes and mass-ing them in the fourth precinct, although that precinct is reliably democratic. Engraving by the Aid of the Electric Current.

Advices from Germany report the dis covery of an important method of engraving. The process consists in trans ferring to a zine plate by the usual methods of photography or by hand, the design to be etched, and after backing the plate with a coating of asphaltum, snepended in a bath of weak acid. A current from a dynamo is caused to be passed through the plate, one of the wires being connected with the plates and the other being suspended in the acidulated water. A few minutes is sufficient to cause the design to be eaten into the plate, the depth of which can be easily regulated

Some times the messenger boys wait on our tomers seeking lamps, while Charlie Millepaugh keeps on sawing wood in the telegraph department where there is constant ticking from St. Loms, Ohicago and other points, including Boody and Bearsdale. The other evening a party who had evident y been there before many a time, called for a lamp, and Charles Newcomb, whose memory proved to be a little off color, hurried to the rout to wait on the customer Newcomb fished out the lamp all right enough, the nan examined it, eard it would do, and then giving the name of the firm told the lad to charge it He then went out, and Newcomb left the counter to tell Mr Millspaugh that he had sold the lamp, but when asked to give the name to whom the lamp was to be charged, the boy scratched his head and sheepishly suswered that he had forgotten the name No amount of prodding could get him to recall the name, and as the boy could not find the man or give even a partial description of the party, he was sent home at the close of business with the reflection that under the rules he would have to produce the lamp or 65 cents in the coin of the realm.
